General Information

Task	Process Information
Creating a Receipt against a PO (Purchase Order)	<p>A receipt indicates that goods/services have been received. A receipt is created against a Purchase Order. Receipts are not required for Express POs created by AOC Field Users for purchases less than or equal to \$2,500. Exception: Receipts are required for Express POs for District Court.</p> <p>NOTE - for AOC, District Court, Circuit Courts, Appellate Courts, and Programs: Per the FY15 Procurement Policy Change, Receipts <u>will</u> no longer be REQUIRED for <u>Services</u> under Corporate POs (POs created by DPCGA). However, receipts are required for all Goods received, and POs created by DPCGA for Goods will be set to Receipt Required. If there is any question by DPCGA as to whether the item is considered Goods or Services, the PO will default to Receipt Required. The Line Details on your PO will indicate if receiving is required.</p>
